9/10/03 Nest with 1 egg (Ibis)
1/10/03 2 Nests with 3 eggs + 1 egg (Glenelg R)
11/10/03 Nest with 2 eggs (Mannum river)
11/10/03 Nest with 2 eggs (Mannum river)
11/10/03 Nest with 1 egg (Glenelg river)
14/10/03 Pair of birds feeding young in nest

Hoary headed Grebe

4/11/03 Near 3 Bridges Jetty, dam two of them were engaged in building, nest was placed in reed about 3 yds from end of dam & composed of a heap of weed growing in water. Birds dived after the nest & dived when approaching the nest, they did not waste much time in placing weed on nest + adults dived when leaving it.

March 1904 I saw a bird on Jeffreys dam & sat down to watch it; it seemed very inquisitive coming to within a few yards of me & making a chirping noise. I threw a clod at it & it came out of water & flew about 20 yds & then flew again when I threw at it and then started diving; I tried to make it fly again but it evidently preferred diving

Black Phoebe

9/9/03 Birds building nest in the Red 15th nest pulled down 19th found nest with 3 eggs in it apparently same pair of birds.

11/9/03 Birds building nest 20th Nest almost half built & Nest ~~[illegible]~~ eggs in it, bird still adding to nest

23/9/03 Birds lining nest (Mc)

27/9/03 Birds building nest (Mannon Rd)

4/10/03 Nest with 3 eggs (Mannon Rd)

11/10/03 Nest with 3 eggs (Mannon Rd)

27/10/03 Nest with 3 eggs (Mc)

7/11/03 Nest with young

17/11/03 Nest with 4 young

6/12/03 Nest with 3 eggs

Brown Hyacinthus

20/9/03 Nest with 1 egg (Springbank Farm)
27/9/03 Nest with 2 eggs partially incubated, but
still adding to nest (Bonds Creek)

[illegible] hatching [illegible] [illegible]
[illegible] hatching found nest of [illegible]
[illegible] with young

[illegible] Gum Well [illegible] 1907
[illegible] found [illegible] incubator with 2 eggs [illegible]
[illegible] nest in a hole in gum tree [illegible] off
[illegible] ground lined with green leaves of gum

[illegible] 1907 [illegible] 2 nests with 2 eggs

gum 2 nests one contained 2 full fledged
[illegible] other contained 1 egg a low flushed
[illegible] with
[illegible] magpie [illegible] every [illegible] eggs
[illegible] hunted a nest off [illegible] in hole in
[illegible] as [illegible] found a
[illegible] nest of [illegible] with 1 egg in it
[illegible] very numerous & all appeared to be

engaged in nesting operations
Nest of Rose breasted Cockatoo with egg, broken
nest 15 ft from ground & lined with gum leaves
Ringnecks are not laying yet but all are paired
off & looking for breeding places
Many colored Parrakeets & Blue bonnets are also
paired off & looking for breeding places
White eyebrowed Babbler on fresh nest & one young one

Birds noted

Wedge tailed Eagle, Little Eagle, Whistling Eagle
Brown Hawk, Kestrel, White eye brow, Black backed
Magpie, Grallina, Minah, Crows, Black & White
Flycatcher, Restless Flycatcher, White eye, Zomba
Pachycephalus Gerardus, Tree Swallow, White rumped
Babbler, Pigeon Crested, Graculina, Rose breasted
Cockatoo, Sulphur crested Cockatoo, Ringneck, Many
colored Parrakeet, Blue bonnet Parrakeet, White
fronted Chat, White winged Wren, Ground
Lark.

21/8/07 Tanganyika Tour Sept 21st 1907

Sept 21st left the Hill in company with Dr. Rae, Jim, Mark & Selim & motored down of Eagles (H. Vindex) 10 miles and soon had an fairly several species of birds noted Red Backed Kingfisher (H. Pyrrhopygius) Black faced wood swallow (C. Melanops) Robins, White faced (C. Leucopsis) Singing Honeyeater (P. Fuscus) Ground lark (A. Cinnamomeus) Browning lark (C. Cinnalis) Rufous Song Lark (C. Rufescens) & another pair of H. Vindex soaring over the hill ahead. The country from here to Tabora early grass burned at crucks followed at to first metalle camp grass Whistling Eagles (H. Spenurus) were very numerous. Also saw Hoffman's Little Eagle (H. Morphnoides) Northern Kestrel (C. Rufescens) Brown Hawk (H. Orientalis) Short billed Crow (C. Cornutus) were also plentiful. Dr. Rae & I went for a walk up the hill while the others fished. Dr. Rae found first nest Red Bill (Buteogulus) at least 4 eggs. I found a Galah (C. Leucocapilla) nest at least 3 fresh eggs resting on top of grass gum leaves. Large flight of Wood swallow (A. Superciliosus & Melanops) were settling for the night in trees on bank of river. A pair of Rufous fronted Lark (A. Rufigularis) at least 4 eggs. I flushed a Galah (C. Leucocapilla) nest at least 3 fresh eggs resting on top of

cent young of Bullock's Oriole & Yellow Warbler) Sept. 1st We were astir
& fore dawn & then killed brown thrasher & examined
& cent & opp. bank for an hour & then paddled off to the left into
open country very little timber & some marsh & cultivated
fields near. Back came & examined & passed to S.B. Brown one of
which cont. young mus. of the 15 miles. Dividing country became
more rocky & hilly & town & many rocks consisted of limestone
& many boulders & other crossed gum creek thickly timbered but
with dense rocky growth on banks. Several times & Minnehaha
were here noted & Bell's Vireo (Vireo Belli) was heard calling
travelled parallel with creek all on wheat & oats. Had lunch
at pair of Gulls & saw Sandpiper & Yellow Legs
dead in flower also saw & noted Wilson's Snipe
Common Tern & Black Tern & many more small & B.B. Buzzard
& Sparrow Hawk & saw in the afternoon & after lunch saw
creek dead & saw & on our right hand & getting much
denser & higher & saw & opened of Tree & noted & Lophodytes
Cucullatus, Hooded Merganser & Stinging Honeybees, Bell
Birds were heard calling on every side & the land much
higher & less wooded the Hills. Leaving the Stone the
lake first came into view a large Dumbbell shaped
body of water surrounded with a good growth of
Cattail & a species of Sagittaria & Alisma & we
met Dr. & Mrs. Jones who showed us a good

formed a vein of White Blossomed Thorn [illegible]
[illegible] failed to deceive us. [illegible]
[illegible]
[illegible]
[illegible]
[illegible]
[illegible]
[illegible]
[illegible]
[illegible] another lake
[illegible]
[illegible] stones
[illegible] all over the
[illegible]
[illegible]

(P. Lanceolatus) just about ready for eggs. nest composed
entirely of sheep's wool. Nest examined was one of
(P. Modestus) placed in fork of Leopard tree about 15 ft
from ground & contd 2 young ones. several nests of
Babbler (P. Ruficeps) were examined but no sign of any
resident single Misseltoe bird (P. Decorus) noted prospecting
for barries. several Bell birds (C. Crassirostris) were still seen
& heard. On our way back we found the bird &
secured it. The compound habitation & nest & 5 eggs
of P. Ruficeps - & a specimen of Sunbird (Nectarinia) the
cock mother, nest and young of same bird. Tea
over we soon started on our return all pretty tired.
Sept. 2nd Spent morning in bed. Afternoon started off
to explore the country beyond the lake on S. West
direction & met Jet Flycatcher & cont 3 & 4 young resp.
& shot bird with white Plumed Honeyeater. nest was
noted with dead young on on the ground underneath.
a great commotion amongst the smaller kind of
birds announced the arrival of an enemy & found
to be a Sparrow hawk (A. Fasciatus). Brown Tree creeper
(C. Macularius) nest cont 2 eggs. nest neatly made & built
in dry spout of Box & composed of a bit of fine grass.
We struck a bit from the lake & found Decorus nest
in Misseltoe parasite on Wattle and 2 young ones. Brown

[illegible] hollow tree

[illegible] numerous pairing off. [illegible] numerous also one of the hawks [illegible]

[illegible] Bald Eagles [illegible] found [illegible] Rose [illegible] superciliosa eggs another [illegible] young ones both nests well [illegible] hollow tree was found dead [illegible] eggs probably. Teals. Sid [illegible] hollow trees growing in the lake [illegible] nest but did not succeed in finding any so [illegible] nest [illegible] found [illegible] young [illegible] nests and the [illegible] camp of recent date [illegible] through

[illegible] with a few [illegible] of that [illegible] Shepherd
Mistletoe was growing in profusion with that [illegible]
The same occurs [illegible] (in general appearance like Blue
Cow), but with a pretty daisy like flower with dark centre
about ¾ of an inch in diameter. It had a very sweet smell.
Honeyeaters were plentiful. 2 nests of White Throated were
found in mistletoe one unfinished & the other and 2 eggs
[illegible] of each were [illegible] & [illegible] had Aus
[illegible] Thickhead early start for Lake 6 miles from
camp. Passed through several [illegible] of Major
Mitchell's [illegible] passed [illegible] they were
preparing a bathe for nesting purposes [illegible] of White
[illegible] Eagles were [illegible]
a few [illegible]
[illegible] few Duck
were noted on the larger lake & around the shore a few
[illegible]. We started off round the
lake first. Land was a mass of Tumbledown Honeyeater and
[illegible] at end
of [illegible] of Bore. The growing [illegible] of the
[illegible] were
[illegible] nothing of note [illegible] smaller
lake. Saw a few Duck [illegible] from Wood Ducks
were heard [illegible] the Tree [illegible] Aus

[illegible]

[illegible]

camp, [illegible] which [illegible] Jack [illegible]
Dr. [illegible] a few photos which we were [illegible]
[illegible] the pattern [illegible] Dr. [illegible] a Box [illegible]
thought [illegible] would find some nests that [illegible]
[illegible] with eggs & another cont young [illegible]
opened cont 4 eggs. Dr. [illegible]
[illegible] Box [illegible] cont 7 eggs [illegible]
[illegible] Hummingbird one [illegible] the other cont
young. I climbed up a Bog-log nest about [illegible]
[illegible] Jack [illegible] & obtained 2 eggs one of which I [illegible]
[illegible] on our way back to [illegible]

[illegible]

[illegible] single specimen of

[illegible]

[illegible] Jack [illegible]

[illegible]

[illegible] in front of [illegible] found [illegible] of [illegible] and [illegible] feet up the [illegible] and in most unknown were neither a few feet of the nest. Between [illegible] and some [illegible] under which a colony of living [illegible] were [illegible] number at least nine fifteen hundred [illegible] of black [illegible] headed were living a [illegible] [illegible] Picked [illegible] fishes [illegible] [illegible] but none not could be found. Little farther on a pair of [illegible] [illegible] could not find a [illegible] nest, [illegible] pair of black fronted Tern. I separated from the others & examined the country to the right of the creek, [illegible] [illegible] nest of Gulls in front of a [illegible], I found the others further on. Willie had found the nest of a small (perhaps) with his nothing closely on a egg. [illegible] [illegible] found a nest of Gulls, with 2 fresh eggs, [illegible] in front of a [illegible] [illegible] & [illegible] from ground & composed of fine twigs lined with some soft material. The nest from [illegible] [illegible] shed & had a look at them [illegible]. Mr Jackson offered to drive to [illegible] [illegible] about 6 miles from the shed, after dinner & as we had about an hour

[illegible]

[illegible]

[illegible]

[illegible] Black & White Warbler building & incubating in the same bushes. June 5th Made an early start intending to take photos of the cocoa-nut bird at last roosting place. We then operated the following birds found & shot: Grackle out onto the marsh & secured nests. Marsh wren's nest covered with Fowl feathers & 3 eggs, Honey eaters & Albifrons building in Dumphead Black & White Warbler nest & 1 egg. Chestnut-eared Finch nest with 3 dried up eggs in bottom & part of bird in. Albifrons building in Rubber tree, Honey eaters building in Rubber. The nest of Albifrons young had nothing left but Fowl feathers nest with young. Black & White Warbler & Finch had died & I examine any. Grackles nest with 1 egg. Black & White Warbler nest finished. Pitangus's nests contained 3 young unfinished & 2 eggs. Albifrons nest with 1 egg & about to commence the parasite on Rubber. Kingbird nest in Rubber with 3 half fledged young. Fowl feathers nest with young. Grackles feeding young in nest. Black & White Warbler's nest finished. Saw nothing new. Nothing new all day. Next time I made my way to Lot 8 Concession. He had found a nest of Albifrons with 2 eggs & nest to built in that part of Dumphead. Found a nest of Leptotes with 1 egg & 1 young one just hatched. He also noted 4 species

[illegible] Pernambuco
[illegible] from the
[illegible] strong [illegible] country with Mesquites growing in profusion
[illegible] Pine [illegible] regular [illegible]
[illegible] black
black [illegible] a pine ridge [illegible]
[illegible] (Indian) [illegible]
[illegible] here for resting purpose [illegible]
[illegible] a few [illegible] days, turned for camp [illegible]
did not examine it [illegible]
[illegible] Apinis [illegible]
[illegible]

[illegible] of ships
[illegible] come [illegible]

[illegible] found the very [illegible] building. Dr
[illegible] found P. [illegible] & found P. [illegible] & found already
[illegible] eggs, an [illegible] & found [illegible] nest in
[illegible] & found [illegible] & found [illegible] & found
[illegible] found [illegible] of O. [illegible] & found [illegible]
[illegible] & found [illegible] & found [illegible] & found
[illegible] & found [illegible] & found [illegible] & found
[illegible] & found [illegible] & found [illegible] & found

some Tufted Pipits were nesting at small pond on
a Box Gum flushed a pair of Grey-crowned
[illegible] and finding nest. I found a
Gulah nest and 2 fresh eggs on hollow upright
of Box. Nest was filled in the depth of
a fork with green leaves, lined with long fine
[illegible] flowers, hairs, feathers, [illegible]
Eyes (apparently) nest and young were found
on the 4th. I found a nest of Gilbert's and
[illegible] nest was placed in hollow top of dry
[illegible] stump about 15 ft from ground, rather an unusual
[illegible] Grey-headed Honeyeaters nest and 2 eggs
[illegible] a nest of Petroica was in a mistletoe in
[illegible] fork of the other and 2 eggs were only [illegible]
[illegible] a female Hooded Robin attended
[illegible] flitting along the ground & fluttering
[illegible] wounded, a second revealed the nest and young
[illegible] placed in Box at Gap about 2 ft from ground
[illegible] Fairies nest and 2 enlongated eggs was taken from
[illegible] hole of a Box tree. A nest of Petroica was
found in dry tree an unusual situation. The nest of
[illegible] of Gilbert's was noted in Sandalwood tree. A Tree
creepers nest and 3 eggs was found in dry stump
[illegible] bark flew all around the tree. In a patch of

Box and a Sparrowhawk was noticed flying to the same
young others from a nest. The parent birds & a host of
others attacked the intruder & drove it away. On the way
back he carried off a specimen of the Pied Wagtail
robbed some young Tree Pipits just out of nest. A Bittern
(Botaurus stellaris) flapping along the ground was savagely
attacked by some Black Terns (Hydrochelidon nigra)
showing that they had a nest in the vicinity. A close search
revealed the nest attached to a stump half in the ground
& composed of some dark & dead water plants. It contd
3 fresh eggs. In returning the camp we found a Water Hen
had taken a nest of 8 Pheasant eggs.
Sept 8th Sunday was a rainy day & consequently we had
breakfast & packed our belongings & left camp on route
for home on our way shot a sandy pipit & got
off to Lifton. On the road we found a nest of Pheasants
contd 8 eggs. Further along the road a Black Bearded
Buzzard was noticed flying overhead. A large nest
in Black Oak near the road was examined & proved
to be a Wedge Tailed Eagles & contd 2 young ones nest about
60 ft from the ground. In other found flying about
Kangaroo Rat contd 2 eggs in Hollow at Whistling Eagles
nest, nest on examined contd 2 eggs. We stopped for
lunch on one of the creeks where there was found a other

[illegible] hollow tree was found to contain 2 eggs usual [illegible]
of [illegible] the spot must have been a large
camping ground of the [illegible] Indians, under
[illegible] on the banks and
[illegible] great number of Gallinaceous
[illegible] the Alamo [illegible] feather on
one of some trees growing on [illegible] of the [illegible]
a train of Major Mitchell's [illegible] finished but we
[illegible] found a [illegible] Gallinaceous [illegible]
[illegible] of the hollow of these trees as
[illegible] the [illegible] of [illegible] all
[illegible] marched in [illegible] a company
[illegible] from the Station
[illegible] of [illegible] and 2 eggs an unfinished
[illegible] examined, [illegible]
and the camp. Large flock of Cyanopsitta
[illegible] camp [illegible]
[illegible] the [illegible] all [illegible]
[illegible] flock was a nest of Cyanopsitta
Big Red Gum contd 2 eggs slightly up in [illegible]
[illegible] on [illegible] flowered [illegible]

[illegible] black headed gull. I also forgot to
bring specimens with him so he went back to
camp to get it while I took a stroll to the
north corner of the lake on which the mother
built it is seen to consist of a few sticks the floating
of which formed the foundation, but as
the bird was neither seen leaving or returning
to it, however I found a cup round the
bird's feet and another overhead with another
cup round it which was the other
end of a mere pool where the nest was and the
eggs. Dimensions of the nest were 8 ft in length
2 ft in breadth and only projecting merely an
inch depth constructed of fine sedge which is lined
with grass. Nest is about 12 feet from water
about 20 ft from pond. In a hedge and on the
other side of the lake a black headed bunting was
seen and 4 times flew out of it and on 3rd
3 eggs another nest and cup found in
alder bushes the cup was found and
dried grass to the nest was found in
Feb. nest built under the cup in a fork
eggs. 4 found in fine from bent bottom which
eggs were noted another nest of same

cont 1 egg & a clutch of 2 eggs were [illegible] from
another nest. General Hedge hailed [illegible]
nests were exa[illegible]
[illegible] with a couple of [illegible] and cont a
nest of Gymnop cont 3 eggs & a Yellow Kerkeb nest
[illegible] nest of Gymnop cont 4 eggs
[illegible] Galah & cont in another also
were found to be just ready for eggs. Usual [illegible]
[illegible] the Gymnop nest was examined
[illegible] of a couple of Kerkeb & the [illegible]
[illegible] flapped [illegible] off the nest [illegible]
nests built in hollow spouts. The Gymnop noted preparing
[illegible] nest with green leaves
in another hollow. The Gymnop nest cont 3 eggs & Galah nest
cont 4 eggs usual lining of green leaves. Bainard pair had
nest cont 2 eggs [illegible] green leaves, Gymnop nest
[illegible] cont
[illegible] Kerkeb nest [illegible] after
[illegible] eggs cont & half flapped
[illegible] nest of the Gymnop cont 3 eggs
[illegible] cont 2 eggs. Also a Galah
nest cont 3 eggs usual lining of green leaves. A Yellow
[illegible] cont 4 eggs [illegible] Galah nest cont 4

egg & another with 2 eggs, a nest of young of some species of Fawny shouldered Pelican, noted the first & last seen up here. A nest of Little Eagle with 2 eggs, Pigeon Hawk's nest with 2 eggs in advanced stage of incubation, & Flitting Eagle's nest with 2 eggs, completed the eggs we have returned to camp & set another station.

Stopped 10th last day of our trip, after breakfast we packed up & got ready for home, then pushed towards the station with all dispatch. Saw a Falcon fly from tree with several shellows in it first hollow with 1 egg of a Chicken Hawk, next 2 eggs of Gymnogene, from the 3rd hollow 4 eggs were taken. Next nest examined Kurnards pair & had 2 young ones & 1 egg, the old birds were sitting close to them. A Black & White Swallow-tailed Kite found that occupied by a old bird. They could not in their own at night. A Red Backed Kingfisher was seen flying hollow in the same bank. A Chicken Hawk with 2 eggs was next taken, then a nest of Gymnogene in dead hollow. Then had another with 1 egg, another with 1 egg, & another with 3 eggs, the nest taken by Eagle, nest about 12 ft from the ground, contained of 2 eggs. Then a Gymnogene nest with 3 eggs, a Kestrel's nest with 2 eggs & another with 1 egg, nest noted, then a Kite

[illegible] completed the morning
[illegible] at [illegible]
[illegible] per [illegible] for the [illegible]
[illegible] at Stephens creek a [illegible]
[illegible] and [illegible] the [illegible] stock

[illegible] Head out with Dr Mac: to [illegible]
[illegible] gunner [illegible] several young [illegible]
[illegible] were noticed near the track, to [illegible]
[illegible] [illegible] [illegible]
[illegible] [illegible] [illegible]
[illegible] overhead at creek near [illegible]
[illegible] Kanigaroos & a couple of [illegible]
[illegible] approached the creek
[illegible] short of the [illegible] first
[illegible] [illegible] of [illegible]
[illegible] young [illegible] in [illegible]
[illegible] shipping [illegible]
[illegible] shipping [illegible]
[illegible] [illegible] and a young
[illegible] [illegible] [illegible]
[illegible] eggs of [illegible] [illegible]
[illegible] [illegible] of [illegible] jumped out
[illegible] [illegible] [illegible] [illegible] a nesting site

[illegible] and the Eagles with a pair of young
Hymnops were noted. Not a fly-catcher's nest and eggs was the
next noted at Black Hill Station. [illegible] was examined
& found to be just ready for eggs another [illegible] on the opposite
side of a dead white gum [illegible] young ones & a third [illegible] fresh
Herbert's nest and eggs. Flying next noted in a
washaway several nests of Black & Pale Fantails were
examined & were just ready for eggs. A third contained young
ones & a fourth and 10 eggs & a fresh Herbert's lying laid
on top of an old one. In the same stand a King fishers
nest was found and 4 eggs in an advanced stage of
incubation. A Herbert's nest [illegible] & eggs & a little
Eagle's nest and eggs. A nest and small young of
6 Hymnops. A Buff headed King fishers burrow was
noted on steep bank. In the [illegible] Eagles sit on
branch of [illegible] & contained
young ones. Discovered the remains of partly
killed rabbits on the nest. On our way home
we caught a Buff crown Finger Fighter in a stand
of the [illegible] by the [illegible] & fresh
Swallows nest and 4 eggs were noted on another
bank. A King fishers nest and 4 eggs in an advanced
stage of incubation. Nothing more of note

[illegible] September 1907

[illegible] found

[illegible] Dead wood. In address [illegible] found 3 eggs

[illegible] young ones

2 Warblers nests, cont. 4 eggs, the other cont. [illegible]

[illegible] building on Red

[illegible] 30 ft from the ground.

[illegible] the Warbler nest

[illegible] long grass on the

[illegible] 30 ft from the

Hyacinthers nest with 3 eggs, 2 nests of Bachelor

[illegible] Thrill one cont young ones one

[illegible] Thrasher nest

of [illegible] with fine

grass which formed from the [illegible] and [illegible]

ones. Saw two more [illegible] of Warbler, Fringilla

trees on bank of river

found [illegible] Thrasher nest

then [illegible] could not

find any [illegible] of the [illegible] Sparrow and

Cockatoo [illegible] young ones. Black

Checked Hawk [illegible] young [illegible] nest with

eggs. [illegible] examined but

there were no eggs at. In the garden I found a nest of yellow wagtail containing one egg of Bunge's bunting and found a nest of [illegible] containing eggs.

Monday 23rd. Started [illegible] of Tang Chuan 2 and fetched young men & [illegible] & [illegible] & [illegible]

[illegible] of the Rajah [illegible] the [illegible]
[illegible] the management [illegible] a [illegible]
